Ft. Lauderdale-Hollywood International	Ft. Lauderdale, FL
Federal Aviation Administration	Madison, MS

Using Exel Composites Frangible Systems at an airfield provides safety and makes regular inspection and maintenance easy, cutting costs of time and service drastically. Giving you complete conformance with the required FAA and ICAO standards, the Exel design allows up to 150' towers to be lowered to the ground for maintenance. The unique counter balance design assures many years of trouble free safety and maintenance.

**No climbing towers ever again!**

### EXEL Frangible Fencing System Users

Air Traffic Services Command	Ft. Rucker, AL
IOMAX USA Inc.	Denver, NC
